

# INVITATION

## THE ONE AFTER THE INAUGURAL MND CHARITY BALL

*Motor neurone disease is an insidious and incurable disease that affects many families including that of our great mate Mick Rodger. MND receives little public attention, and is in desperate need of funding for research and family resourcing. With greater funding, researchers can build upon their very positive recent work in this area, and families can access necessary equipment. Join us again in 2009 for a fun night that also makes a difference.*
